The screenshot displays a web browser window with the URL `stackblitz.com/edit/nestjs-typescript-starter-6pkucg`. The browser's address bar shows the page title "Nestjs - Typescript Starter (forked)". The left sidebar contains a "PROJECT" panel with a "Create a repository" button and a "FILES" panel showing the project structure:

- dist
- public
- src
  - app.controller.spects
  - app.controller.ts
  - app.module.ts
  - app.service.ts
  - main.ts
- test
- views

The main editor area shows the `app.controller.ts` file with the following code:

```
1 import { Controller, Get, Render } from '@nestjs/common';
2 import { AppService } from './app.service';
3
4 @Controller()
5 export class AppController {
6   constructor(private readonly appService: AppService) {}
7
8   @Get()
9   @Render('index')
10  getHello() {
11    return { message: 'PASE ME PROFE' };
12  }
13 }
14
```

Below the code editor is a terminal window showing the following logs:

```

```

On the right side of the editor, there is a large blue rectangular area with the text "PASE ME PROFE" in white capital letters.
